James Morris

F R O N T   E N D   D E V E L O P E R

I'm a front end developer and IT technician who has just completed a one-year internship at the digital learning company Saffron Interactive. I'm looking for front end developer positions that will allow me to further build upon the foundations I've developed over the past year. I have a keen eye for accessibility, UI, UX and responsive design, and I work well within a team.

W O R K   H I S T O R Y

Front-end developer & IT technician
Saffron Interactive, London
2019 - present

+ Supported development of multiple live client projects
+ Effectively worked in collaboration with instructional design, graphic design, QA and sales & marketing teams
+ Developed knowledge of React (class & function components, modern hooks, React router, styled components)
+ Developed an admin solution in React to support development of courses and improve efficiency across all teams
+ Gained experience of Agile development principles
+ Performed cross browser and device QA using BrowserStack
+ Performed end to end testing using Cypress
+ Managed and performed maintenance of company and client servers (Windows & Linux)
+ Managed company instances across multiple AWS services (EC2, S3, Workspaces)
+ Managed work environments for 20+ employees over UK and India
+ Troubleshooted all hardware, network and software issues
+ Fully supported all company employees in the transition to work from home over the COVID period
+ Responsible for providing systems training and support to 15 new starters

E D U C A T I O N

2018 - 2020
Msc Computer Science with Internship (Merit)
UNIVERSITY OF KENT, CANTERBURY

- JSON, XML

- Cmd, PowerShell, Linux terminal

- Photoshop

- AWS (EC2, S3, Workspaces)

This degree gave a broad overview of many topics, including software engineering, web-based information systems development, object-oriented programming (JAVA), computer graphics and animation, logic and logic programming and systems architecture. My dissertation involved investigation of remote mobile attacks on point-of-sale devices.

2011 - 2014
BSc Forensic Biology (2:1)
UNIVERSITY OF PORTSMOUTH, PORTSMOUTH

2009 - 2011
A Levels
SEEVIC COLLEGE, BENFLEET
Art (B), Psychology (C), Biology (D)

I N T E R E S T S

When I'm not working, I enjoy building PCs for family and friends. I'm hooked on small form factor (SFF) builds and I'm an active member of the SFF Reddit community. I also play guitar, and enjoy song writing when the mood strikes.
